MANIFESTATIONS AGAINST OUR COUNTRY

As you all know, 4 days ago we got visited by some inhabitants of Meltisi. They held a manifestation against our men and our spiritual leader and accused our culture and most of all, our country of mistreating our women. Of course, none of it is true.

The manifestation took place in our capital Deüsa. Apparently A Meltisian women read lots of fake news about our culture and the way we treat our woman. She spread the news all over Meltisi. The misunderstanding arose when the woman read that almost all of our women are pregnant and do nothing else than bear children.

That's why the LGBT-community found a way, through Eldorado, to enter our country and to hold a peaceful protest march. During that manifestation lots of our local people were afraid because they didn't know what was going on.

Of course our spiritual leader wants peace in our country and to protect our inhabitants. In order to do so, Don Deüs decided to imprison some of the protesters from Meltisi. Meltisis leader was not pleased by those actions and urged Don Deüs to free his them.

A chance to meditate

To clear the air, Don Deüs did not put the Meltisian protesters in a dark and unsafe place. He wanted to make sure that they got a chance to rethink their opinion about Soleum. They were transferred to one of our temples, and got the opportunity to pray and meditate. They got the chance to learn more about our vision about women and our religion.

Through books and meditation they learned that our women don't have to work, so they have way more time to focus on their pregnancy and children. This way they have all the time to relax and enjoy their families. The hard work is for men, because they don't have to carry the burden of being pregnant for nine whole months and giving birth. Women in Soleum are rewarded for going through so much trouble, and that's why they get the chance to stay at home and live their lives in peace.

Discussing in peace

This morning, a meeting took place in our capital Deüsa. Our leader Don Deüs and the 24 members of the 'Citizen Council' of Meltisi sat down together to talk about everything that has been going on in our country lately.

Our spiritual leader felt that his country was being misunderstood so he decided to contact the 24 members of the Citizen Council of Meltisi. Don Deüs organized this meeting and used it as an opportunity to explain everything and show the Citizen Council how things really work in his country.

The meeting lasted hours and many things were discussed. The Citizen Counsel also demanded that the Meltisian protesters that got arrested were to be released from prison. A lot of negotiations took place and Don Deüs did everything he could to defend his country and to make sure that no manifestations and protest marches would take place again in the future. We all know that good relationships with the other countries of UBN is very important for our spiritual leader and that peace is a priority for him.

After the meeting, the protesters could leave our temple. They were sent home to Meltisi. The manifestations ended all by all in peace, and both parties learned a lot. Don Deüs took his responsibility and worked everything out with the members of the Citizen Council.

We can all rest again, and leave our worries behind. Let's all remain in peace.
